Green Day - Brain Stew(Tune Down ½ Step)

Led Zeppelin - Dazed and Confused

Diagram illustrating a quantum circuit with 6 qubits (e, B, G, D, A, E) and various gates (CNOTs and Hadamard gates) applied to them. The circuit structure is as follows:

- Qubit **e** is initialized to $|0\rangle$ and has a Hadamard gate applied.
- Qubit **B** is initialized to $|0\rangle$ and has a Hadamard gate applied.
- Qubit **G** is initialized to $|1\rangle$ and has a Hadamard gate applied.
- Qubit **D** is initialized to $|1\rangle$ and has a Hadamard gate applied.
- Qubit **A** is initialized to $|0\rangle$ and has a Hadamard gate applied.
- Qubit **E** is initialized to $|0\rangle$ and has a Hadamard gate applied.
- The circuit includes several CNOT gates:
 - CNOT from **e** to **B**.
 - CNOT from **B** to **G**.
 - CNOT from **G** to **D**.
 - CNOT from **D** to **A**.
 - CNOT from **A** to **E**.
 - CNOT from **e** to **B** (repeated).
